There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and some small particles of albuman will appear, or the color will be of a thin milkish hut, again changing to adark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

A Fatal Accident.

PHILADELPHIA, October 5. The in-bound train on the North Pennsylvania Branch of the Philadelphia & Reading Railroad ran into a street car of the Union line, at Susquehanna and American streets this morning. The car was demolished and all the passengers more or less injured. Ten people who were the most severely injured were taken to the Episcopal Hospital, and two have since died. The driver of the street car was in the car at the time of the accident. Those who have died are The British Columbian press are James Hammil and James Deviere, as respectable and reliable as any Among the injured was a woman named Mary Sellers, who was terribly mangled; she was carried to the hospital in a bag.; she and several others

A Tough Customer-Material Aid.

CHICAGO, October 5. A detective passed through here last night for Tilden, Texas, in charge of a man named Clab Young, who is wanted for the murder of a man named O'Donnell in November, 1882. The prisoner was arrested on a ranch seventy miles south of Rawlin's, on the Union Pacific Railroad, where he was living with a Mrs. Caste, having driven the husband of the woman away. It is told of Young that he and and his brother carried on a career of origandage in the southwestern part of Texas for a number of years, robbing stages. The murder of O'Donnell resulted in their being driven

Ex-Senator Gwin Talks.

SAN FRANCISCO, October 5. A Chronicle New York special says: Ex-Senstor Gwin on the Presidential candidates, stated that Judge Field is unpopular at home on account of his decision on the bench, especially in the Chinese cases. He predicted that California will go Democratic in 1884. Speaking of the Chinese on the Pacific coast, he said: "The people there are against the Chinese as much as ever too much so perhaps, yet the Chinese are a curse to us. They are like a swarm of locusts, they locate in the best places, and devastate everything.

Three Miners Blown to Atoms. From the Bodie Free Press of the the inst. it is learned that three men white charging a hole in the face of the great Sierra tunnel at Tioga, Mono county, Cal., last Tuesday, were blown to atoms by the accidental discharge of glant powder. The names of the unfortunate men, who could only be recognized by their size and clothing, were Albert Snibley, a native of California, aged 25; Charles A. A gentleman in San Francisco "I was called out of bed past midnight to go four miles in the country and attend, what the messenger stated was a bad case of diphtheria."
"And you went?" "Had to; when I arrived I found a 10-year-old girl crying with a sore throat. I looked into it, asked the girl a few questions, and found that she had done a big washing that day. Had a little cold—nothing else." "How can you tell the difference?" "I'll give you a rule by which you can always determine," was the response. "If the throat is red and swollen, no fear of diphtheria; but if i looks as if someone had thrown a handful of saker into its day and find the throat is red and she had done a bag washing that day. Had a little cold—nothing else." "I'll give you a rule by which you can always determine," was the response. "If the throat is red and swollen, no fear of diphtheria; but if it looks as if someone had thrown a handful of saker into the throat."

DEATH UNDERGROUND. Miner Dies While Being Hoisted to the Surface

This morning's Virginia Enterorise says: Last evening James Orrem of Gold Hill died very sudemployed as a carman on the 2,900 level of the Mexican mine. About 4 o'clock in the afternoon, some 4 o'clock in the afternoon, some men passing through the drift in which Orrem was at work, were somewhat startled by hearing groans. Advancing toward the point whence the sounds of distress proceeded, they found Orrem lying upon the floor in an unconscious condition. He was taken out through the drift and up to the Union shaft as quickly as possible. At the shaft he was placed on the cage, with two men to support him. At the shaft he was placed on the cage, with two men to support him, but he breathed his last before reaching the surface. It was at first reported that the man died from being over-heated, but it does not appear that he was working in a hot place. His fellow-miners believe he died of heart disease, and that how appears to be the general now appears to be the general opinion, as his father died of, or was troubled with heart disease.

MISCELLANEOUS.

That is what a great many people are doing. They don't know just what is the matter, but they have a combination of pains and aches, and each month they grow worse.

The only sure remedy yet found is Brown's Iron BITTERS, and this by rapid and thorough assimilation with the blood purifies and enriches it, and rich, strong blood flowing to every part of the system repairs the wasted tissues, drives out disease and gives health and strength.

This is why Brown's IRON BITTERS will cure kidney and liver diseases, consumption, rheumatism, neuralgia, dyspepsia, malaria, intermittent fevers, &c.

> Mr. Simon Blanchard, a well-known citizen of Hayesville, Meade county, Kentucky, says: "My wife had been sick for a lent time, and her constitution was all broken her constitution was all process down and she was unable to work. She was advised to use Brown's Iron Bitters, and found it to work like a charm. We would not now be without it for any consideration, as we consider it the best tonic in the world."

Brown's Iron BITTERS is not a drink and does not contain whiskey. It is the only preparation of Iron that causes no injurious effects. Get the genuine. Don't be imposed on with imitations.

Stockton licences liquor dealers at \$15 per quarter, and has fixed the State tax at one per cent. Russel Burt, for embezzlement, has been sentenced to six months in the County Jail at Santa Clara. The rains have done no material damage to grapes in the Pajaro Valley. The bean crop has been

partially injured. Thos. Courtwright, employed as superintendent of the coal-bunkers at Tacoma was killed by falling from a chute 65 feet high.

The San Joaquin county Supervisors have passed an ordinance exempting merchants and trades-men (except dealers in liquors)from paying license.

Several thousand acres of salt marsh land about Sonoma creek and between that and Petaluma creek have been reclaimed and are now profitably cultivated. Hay has been the principal crop and the

yield is very large. The Washington County Fair opened Wednesday near Hillsboro Or. A heavy rain prevailed all day and the attendance was not large. There will be some good tests of speed and the display prom-

ises to be quite credible. An admission fee of 50 cents is now charged visitors to the ostrich farm at Anahiem. The object of this tariff is to discourage the rush of visitors, who seriously interfere with the work on the farm. The birds are breeding and repuire cereful attention.

GENERAL NOTES.

The Lander county Board equalized the Central Pacific at \$12,000 per mile.

The Democrats of Indiana now propose that Congress shall investigate the frauds by which the Republicans carried the State in 1880, A greater fund of information can be obtained by commencing to investigate now to determine how Indiana

went against the Democrats in 1884. The Amador Dispatch says:

One of the richest strikes known to the mining history of California was made at the Nevilla, or Mammoth mine, about three miles south of here, last Saturday. A pocket of quartz of almost unparalled richness was found less than 100 feet from the surface. in which was contained about two tons in quantity. Much of this might be justly termed huge chunks of gold instead of gold-bearing quartz. Some of these immense pieces of almost solid gold were about as heavy as a man could easily lift from the ground. The largest piece was of an oval shape 16x22 inches and 6 or 7 mohes thick. The old is almost black and of the same character as the former rich strikes found in the same mine, and which heretofore attracted the interest and attention of the mining men of all parts of the Union. We have no doubt but that this is the richest find of gold of this kind ever known in the United States at one single time and will undoubtedly attract much attention from the mining men of the world.

A Chicago Times corresponden telegraphs from Waterlee, Iowa:

Senator Hale of Maine was a passenger on the Illinois Central train the other day, on his way to fill one of his appointments, and was inter-viewed concerning Blaine's political future. To the remark that there was considerable speculation in regard to his position, and that it was said by some that he would be a candidate for President next year again,

the Senator replied very emphatically that he would not.
"In certain quarters it is said Mr.

"In certain quarters it is said Mr. Blaine will oppose Mr. Arthur's renomination?"
"Oh, shaw!" retlied the Senator. "there is altogether too much suspicion in the minds of the people in regard to public year. The record rega.d to public tien. The people think that no public man can do that which is simple and natural, but look all the time for them to do something startling and sensational.

Mr. B sine will do what would be perfectly natural for him to do. His ime is taken up with his historica work, and he is out of politics for the present. But if he can do anything in the way of making speeches next Fall for the success of the ticket, he will do it. He has been twice a candidate for the Presidency, and

was supported by the most brilliant portion of the party, and no one has a greater following among this class than he. There are the same animosfor the Presidency, and should be get the nomination there are certain men who would not allow him to be elected."

"Arthur's administration has given *Yes, sir; he is a level headed man

191 WEST TENTH STREET. NEW YORK, August 11, 1880. MESSES. SEABURY & JOHNSON,-Gentle men:-Like most of my profession, I am cautious about pinning my faith to any new medicine or curative agent. But your BENSON'S CAPCINE POROUS PLASTER has broken through the barriers and won its way to my good opinion. My attention was first called to it some eight months ago by a patient of mine Although I was well acquainted with the superior excellence of your other plaster and anti-septic dressing, made especially for the profession, the Benson's was comparatively new to me. I had heard, however, of its merits as a remedy, in cases of lame back, local rheumatism, neuralgia, congestion of the bronchial tubes and lungs, dyspepsia, torpid liver and the like affections, and have since begun to experiment with the personally. If and BENSON'S CAPCINE PLASTER an exceptionally clear plaster to use and rapid in its action.

Many tests of its qualities, made in my own family and among my patients, have convinced me that there is no other single article so valuable for popular use, nor so helpful in the diseases I have named.

Should you desire to do so you may use your BENSON'S CAPCINE POROUS
